Gentlemen:

Enclosed are an APD, a survey plat, and a BOP diagram, each submitted in triplicate, for the referenced well prospect.

TXO Production Corp. requests an administrative spacing exception pursuant to Rule C-3(c) of the Utah Board of Oil, Gas and Mining. The well is staked 1577' FNL, 1234' FWL, Section 2-T12S-R24E because it is the most geologically and topographically feasible location in the NW/4. The lessee of record, Husky Oil Co., is in the process of designating TXO Production Corp. the operator of Lease No. ML-21061, which encompasses all of Section 2-T12S-R24E, including a 660 foot radius around the proposed drill site. The Designation of Operator forms will be submitted as soon as they are completed.

If you have any questions, please contact me at this office.

Very truly yours,

TXO PRODUCTION CORP.
